Friday, February 26, 2016

Las Vegas, NV

Overview

This course will offer participants the opportunity to learn and discuss relevant advancements in cervical spine surgery. Participants will enjoy an informal and supportive meeting structured to foster discussion and the exchange of new ideas pertaining to cervical spine surgery. During the didactic portion of the program, specific emphasis will be placed on techniques and procedures. The subsequent cadaveric workshop will provide participants the opportunity to perform many of the techniques discussed with faculty guidance in a relaxed environment.

Objectives

- ▶ Review anterior and posterior cervical cases.
- ▶ Debate technique options for various cervical spinal procedures.
- ▶ Discuss the application of spinal implants and other surgical equipment and how they impact decision making, fusion, and outcomes.
- ▶ Demonstrate new and updated options for cervical spinal surgery.
- ▶ Perform highlighted techniques in a cadaveric lab using Stryker Spine products.

Location

The Oquendo Center
2425 E Oquendo Rd
Las Vegas, NV 89120
(702) 739-6698

REGISTRATION

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.

Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: AccuLIF, Aria, Aviator, AVS, AVS Anchor, AVS Navigator, Dynatran, ES2, Escalate, Oasys, Reflex, Stryker, Tempus, Xia. All other trademarks are trademarks of their respective owners or holders.
